

Racism By The Numbers

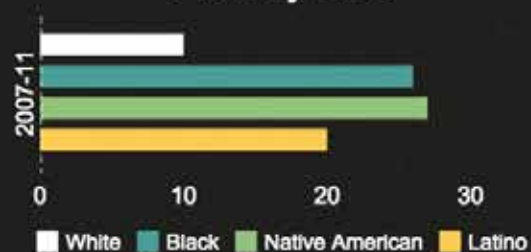

The effects of a long history of racism in America can be seen in personal wealth, education and employment.

\$ WEALTH & POVERTY

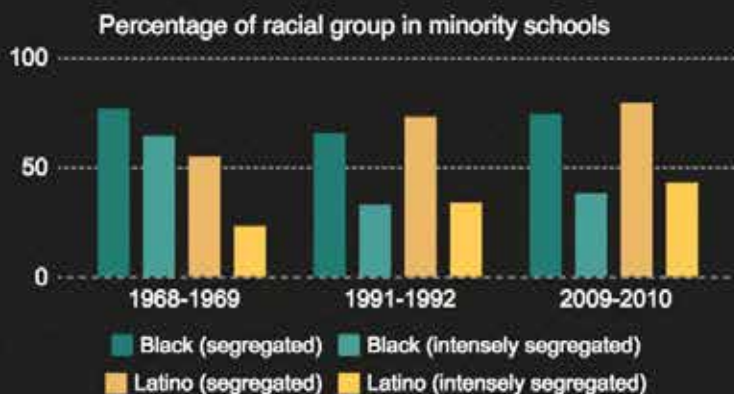

As of 2014, the wealth of White households was 13x greater than Black households and 10x greater than Latino households

% of Households Below Poverty Line

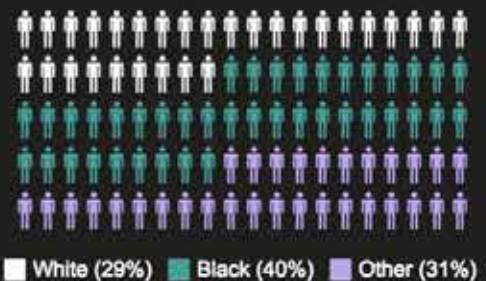

EDUCATION

School segregation is still widespread in America.

DRUGS

White Americans use drugs more than black Americans, but black people are arrested for drug possession more than three times as often.

Sentenced by race

EMPLOYMENT

In 2014, Black people had an unemployment rate more than twice that of Whites (12.2% vs. 5.4%)
